Col. Hank Andrews, 377th Air Base Wing commander, talks with honorary commander Manual Lujan, Jr., a former congressman and U.S. Secretary of Interior, and Col. Neil McCasland, Air Force Research Laboratory Space Vehicles Directorate director. Kirtland Honorary Commanders Advisory Council members and their TEAM KIRTLAND counterparts met for a working luncheon Wednesday at the Mountain View Club. Colonel Andrews facilitated a discussion on a variety of topics including the vision for the new honorary commanders program, the development of the relationship between the community and the installation, Kirtland's affirmative employment program and the goals and timeline for DOD's base realignment and closure process.

ABOVE: Explosive Ordnance Disposal technicians Tech. Sgt. Ronald O'Hara, Staff Sgt. Dustin Lambries and Staff Sgt. Steven Coppock watch as Col. Linda Jones, 377th Mission Support Group commander, throws a signaling smoke grenade during familiarization training at the EOD training range. **RIGHT:** Various colors of smoke from signaling smoke grenades have different meanings. The purple smoke, pictured, generally is used to indicate a terrorist attack.
